The screenshot shows a window titled "Device Properties" with a standard Windows-style title bar (minimize, maximize, close buttons). Below the title bar is the APC logo and the text "A7Ali.software.apcc.com". The main content area is divided into two panes. The left pane contains a tree view with the following items: "General" (selected), "Summary", "Admin Information", "UPS Identification", "UPS Status", "Battery Status", "Power Parameters", "Shutdown", "Diagnostics", "Log Files", and "Communications". The right pane is titled "Summary" and contains two sections: "Host Information" and "UPS Information". The "Host Information" section displays the following values: IP Address: 159.215.15.116, Agent Version: 6.0.Pre-Alpha 2, and Operating System: Windows 2000 5.0. The "UPS Information" section displays the following values: UPS Model: SMART.UPS 700, Serial Number: NS0042141978, Manufacture Date: 10/13/2000, Firmware Revision: 50.11.D, and Battery Replaced: 3/1/2004. At the bottom of the window, there is a checkbox labeled "Show advanced items" which is checked. To the right of this checkbox are three buttons: "Apply", "Close", and "Help".
